

## Wicket Cleaner

A super concentrated cleaner designed specifically to remove carbon from metal wickets which are part of metal litho printing. Safe and economical, Wicket Cleaner works like no other cleaner on the market. Fireproof, no fumes, non-explosive, approved ingredients, bio-degradable and safe.

### Basic Uses:

Removes carbon, oil, grease, industrial grime, buffing compound, inks, animal fat, wax, food and residue.

### Typical Industrial Applications:

Cannery Maintenance  
Conveyor Cleaning  
Food Processing Equipment  
Machinery Rebuilding  
Metal Decorating Equipment  
Production Line Maintenance  
Stripping paint, epoxy and Lacquer  
Phosphate coating removal  
Rust removal  
Wax removal  
Aluminum etching

### Directions for use:

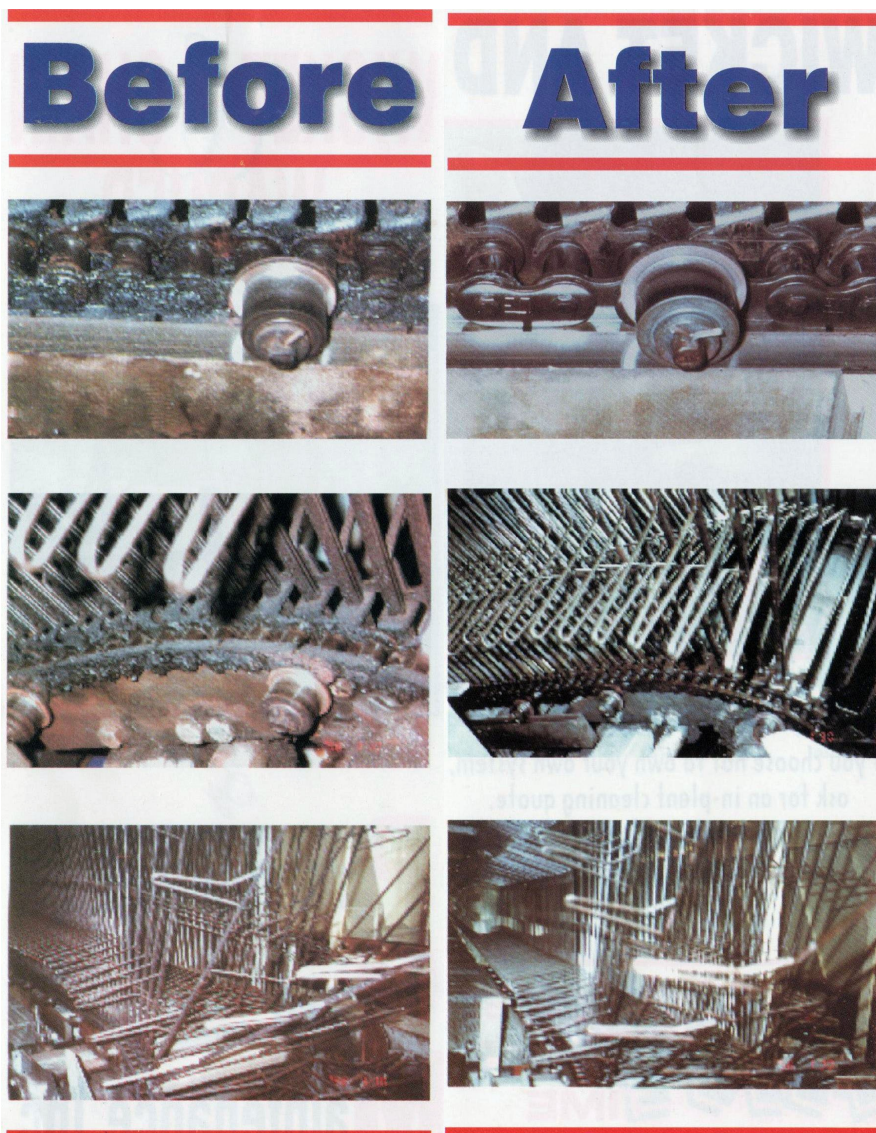

For normal cleaning dilute with 10 parts of clean water. For heavy buildup use full strength, making sure to rinse well.

### Precautions:

Although safe and biodegradable, the use of gloves, goggles and proper ventilation is recommended in spray on applications.

### Packaging:

Wicket Cleaner is available in 1 gallon, 5 gallon, 55 gallon and 275 gallon totes.
